

FiatLux Imaging and Data Distributing Sign Agreement for U.S. Distribution of 3D Imaging Software

Redmond, WA – October 13, 2008 – FiatLux Imaging, Inc., announced today that Data Distributing, an international leader in providing digital image distribution and archiving solutions to the medical industry, has signed a contract to distribute FiatLux Visualize™.

Under the agreement, FiatLux Visualize—the groundbreaking medical imaging software that uses advanced video game technology to render advanced 3D and other image reformations from CT and MRI scans and runs on off-the-shelf PCs and laptops—will be widely available for delivery through the Data Distributing sales and support channel.

“Data Distributing is closely aligned to the needs of FiatLux Imaging,” said Mary Frances Feider, CEO of FiatLux Imaging, Inc. “This relationship will help to strengthen our presence in the medical imaging channel that Data Distributing has worked so effectively to build up over the years.”

“Data Distributing is committed to powering digital medical imaging strategies,” said Nancy Fisher President and CEO of Data Distributing. “This partnership is a great example of how FiatLux Imaging enables these strategies. We are very excited to be partnering with a company with such exciting technology.”

About Data Distributing

Founded in 1984, Data Distributing develops innovative, digital DICOM solutions and provides the integration and professional services to a growing number of facilities, OEMs and channel partners worldwide. Headquartered in California, Data Distributing creates solutions that are used by hundreds of leading medical and imaging centers. For additional information about Data Distributing, please call (949) 598-1880 extension 1213, or visit Data Distributing’s web site at www.datadistributing.com.

About FiatLux Imaging, Inc.

FiatLux Imaging, Inc. is a Redmond, Washington based company founded in April 2007. FiatLux Imaging develops next-generation medical imaging software solutions including 3D advanced visualization and analysis for MRI and CT and digital radiography for use by neurosurgeons, cardiologists, orthopedists, radiologists, and other image dependent providers. FiatLux Imaging is supporting medical imaging customer needs for confident diagnosis, reliable intervention planning, and improved patient care.
