PRESS RELEASE

FOR IMMEDIATE RELEASE

Data Distributing Announces Strategic Partnership with NAI Tech Products

August 16, 2005, Laguna Hills, CA - Data Distributing, LLC, a leader in turnkey DICOM solutions, today announced a distribution partnership with NAI Tech Products, a leading developer of innovative and economical DICOM integration, connectivity and archive technologies.

With this new partnership, Data Distributing is further executing its plans to deliver integrated diagnostic imaging solutions necessary in an imaging environment. NAI Tech products offer the seamless workflow for any level of digital migration that a center is seeking.

"I cannot think of a more natural partnership," says Mohan Mysore, CEO of Data Distributing. "NAI Tech Products helps facilities have the confidence to take that middle step to digital migration, and we are thrilled to be a part of that."

NAI's digitization product line includes the DICOM Box, a connectivity system that allows legacy imaging systems to be added to a digital DICOM network. The DICOM Box allows legacy imaging equipment to be connected to the latest network printing and PACS systems.

About Data Distributing LLC

Founded in 1984, Data Distributing LLC develops and builds value added digital and DICOM solutions, with integrated services, for a growing number of OEM and channel partners worldwide. This international company, headquartered in California, has been chosen as the solutions product of choice by many leading imaging and medical centers.
