PRESS RELEASE

FOR IMMEDIATE RELEASE

Good Samaritan Hospital Chooses Data Distributing for Rimage Disc Publishing Systems

August 27, 2007 – Santa Cruz, CA - Data Distributing, a leader in turnkey DICOM solutions, today announced that it was selected by Good Samaritan Hospital in Los Angeles to supply multiple Rimage Automated Disc Publishing Systems into its ER and Radiology Departments. Value-Added Reseller, D2 Digital Solutions will provide this solution to Good Samaritan Hospital.

“DICOM CD Station enabled us to go 99% filmless, reducing our film expenses \$20,000, annually.” says Bill Cotti, PACS Analyst for Good Samaritan Hospital in Los Angeles, California. “Now that we burn discs directly from the modality, our workflow has improved, and over three years we have doubled the number of procedures we complete annually. Additionally, our technicians LOVE the functionality and simplicity of the DICOM CD Station!”

DICOM CD Station is a bundled CD burning solution comprised of Rimage disc publishing system including thermal imprinting capabilities, IHE tested application software, and embedded DICOM viewing software. DICOM CD Station resides on a PACS network retrieving DICOM, patient images and burns them to disc for referring physicians and patients.
