PRESS RELEASE

FOR IMMEDIATE RELEASE

## ***Data Distributing Celebrates 250th DICOM Solution Installation***

**November 22, 2006 – Santa Cruz, CA** - Data Distributing, a leader in turnkey DICOM solutions, today announced the two hundred fiftieth installation of its popular DICOM CD Station and PACSKey Archive solution.

"Our OEM Services and Solutions business unit has experienced tremendous success in 2006, forecasting expansion in 2007. Data Distributing allows OEMs to provide more value to their customers without draining their own support and install resources. Medical OEMs value Data Distributing's onsite customer installation, training, and first call support services, we provide them, along with the turnkey solution itself," says Nancy Fisher, President of Data Distributing. "OEM clients such as AGFA, rely on us to install and support their domestic and international accounts, quickly, efficiently, and reliably."

"Data Distributing provides us with total turnkey solutions combining hardware, software and professional services, performing over a hundred installations in the US, Canada, and Latin America, for AGFA," says Richard Jung, Technical Marketing Manager for AGFA. "They have provided excellent support for us and I have been impressed with Data Distributing's response and follow-through to questions and challenges."

### **About the DICOM CD Station**

Data Distributing's DICOM CD Station is a CD and DVD publishing solution that works within a digital imaging environment for image distribution. It allows a facility to provide a CD instead of film to the referring physician, substantially cutting costs, time and errors associated with film handling.
